# W3D3 Quiz

*CS472 WAP October 2016 – Prof. Zijlstra*

1. Cookies:
   a. What determines if a cookie is a temporary or permanent cookie?

   If it has a timeout => if the programmer used .setMaxAge()

   b. How can the server specify that a cookie should be deleted on the browser?

   .setMaxAge(0);
   maybe also .setMaxAge(-1); or less

2. Where is session data stored, on the client or on the server?

   server

3. Who creates the response objects?

   Container is part of server

4. Who calls service() and when?

   Container, it does it when a request comes in on a URL for that specific servlet
   Then service calls either doGet() or doPost()
